PASSION PROJECT

MAKE YOUR LIFE A

PASSION PROJECT

PASSION PROJECT

MAKE A GIANT LEAP

**We'll provide
the safety net.**

What dreams would you fearlessly follow if you knew someone had your back and would enable you to achieve them? That's where the DePauw Gold Commitment comes in. We're so confident in our distinctive Liberal Arts education, and in the students who have been educated here, we actually assure your success after graduation. And that gives you the freedom to pursue your passions. Because we're committed to you, whatever you're committed to.

We're committed to you.
Whatever you're committed to.

A Bold Ideal The Gold Commitment

*Find your purpose. Answer your calling.
We guarantee a clear path to your career.*

Class of 2018
97% of graduates employed or in graduate school within six months of graduation

Year after year, our graduates show that a DePauw education equals success—and we're so confident you'll achieve it, we guarantee it. The Gold Commitment is our pledge that within six months of graduation you'll be employed in your field of study or enrolled in a graduate program. If not, we'll help you find employment or offer you an additional term tuition-free.

DEPAUW UNIVERSITY **07**

**The Liberal Art
of Innovation**

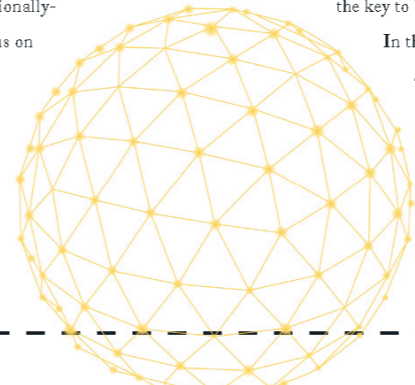

Robert C. McDermond Center

The business hub of the DePauw campus—and home to our Management Fellows—connects students with industry leaders and their professional networks for career-jumpstarting internships.

Our areas of study in business, science, and technology are promoting innovative research and opening rewarding pathways for our students. With our internationally-connected faculty and a focus on worldwide impact, we offer the insight, guidance, and professional opportunities necessary for an inquisitive and accomplished career.

How much of the future will be written in digital code? What are the tangible effects of sustainably responsible investments? Could zebra fish hold the key to beating nicotine addiction?

In the middle of Indiana, a small campus is asking big questions.

What answers will you discover here?

Geosciences and Our Water Supply
Nathan Carey, geology major, spent his summer researching how water flow patterns affect the quality of our natural water resources in a world of compounding environmental challenges. "The best part about my summer was getting to work with my advisor Fred Soster, a professional in the field of geoscience," Carey said. "Seeing how the process of research played out with his guidance was an incredible learning experience."

HONORS AND FELLOWS PROGRAMS

Considering creating your own major?

Talk to our advisors to build a customized plan of study tailored to you.

Our list of majors and minors continues to evolve, so visit our website for details and descriptions.

depauw.edu/academics

HONORS SCHOLARS For those who want to elevate their educational experience with intensive, interdisciplinary seminars and insightful discussion.

ENVIRONMENTAL FELLOWS Gain a sharpened perspective of environmental challenges through focused classwork and hands-on experiences.

MANAGEMENT FELLOWS Expand your business acumen with access to industry leaders, guaranteed internships, and real-world opportunities.

MEDIA FELLOWS Enter the world of media through studio experience, internships, and a robust speaker series, gaining essential skills for a variety of careers.

FIND WHAT MOVES YOU

Division III athletics, intramural sports teams, and dynamic clubs and organizations offer the chance to engage in rigorous activities alongside your academic curriculum. There are plenty of ways to get in the Tiger spirit—playing on a team, cheering for friends, or gathering with peers to get active.
