# CHANGE THE WORLD

BY CHANGING HERS

*Transformation starts by paving the way for another. Armed with a hands-on, global education, our grads are prepared to go GREATER and change not only the future of business, but also the future for us all. We're building the leaders of tomorrow.*

# Inspiring the next generation

*Starting with our students, we set the stage for a tradition of innovation that creates gold standards in health across the globe. Whether it's through advanced medical education, the ingenuity of our world-class researchers or our team-based approach, we go GREATER to lead the way to better care for everyone.*

MONIQUE WILSON JD 2015

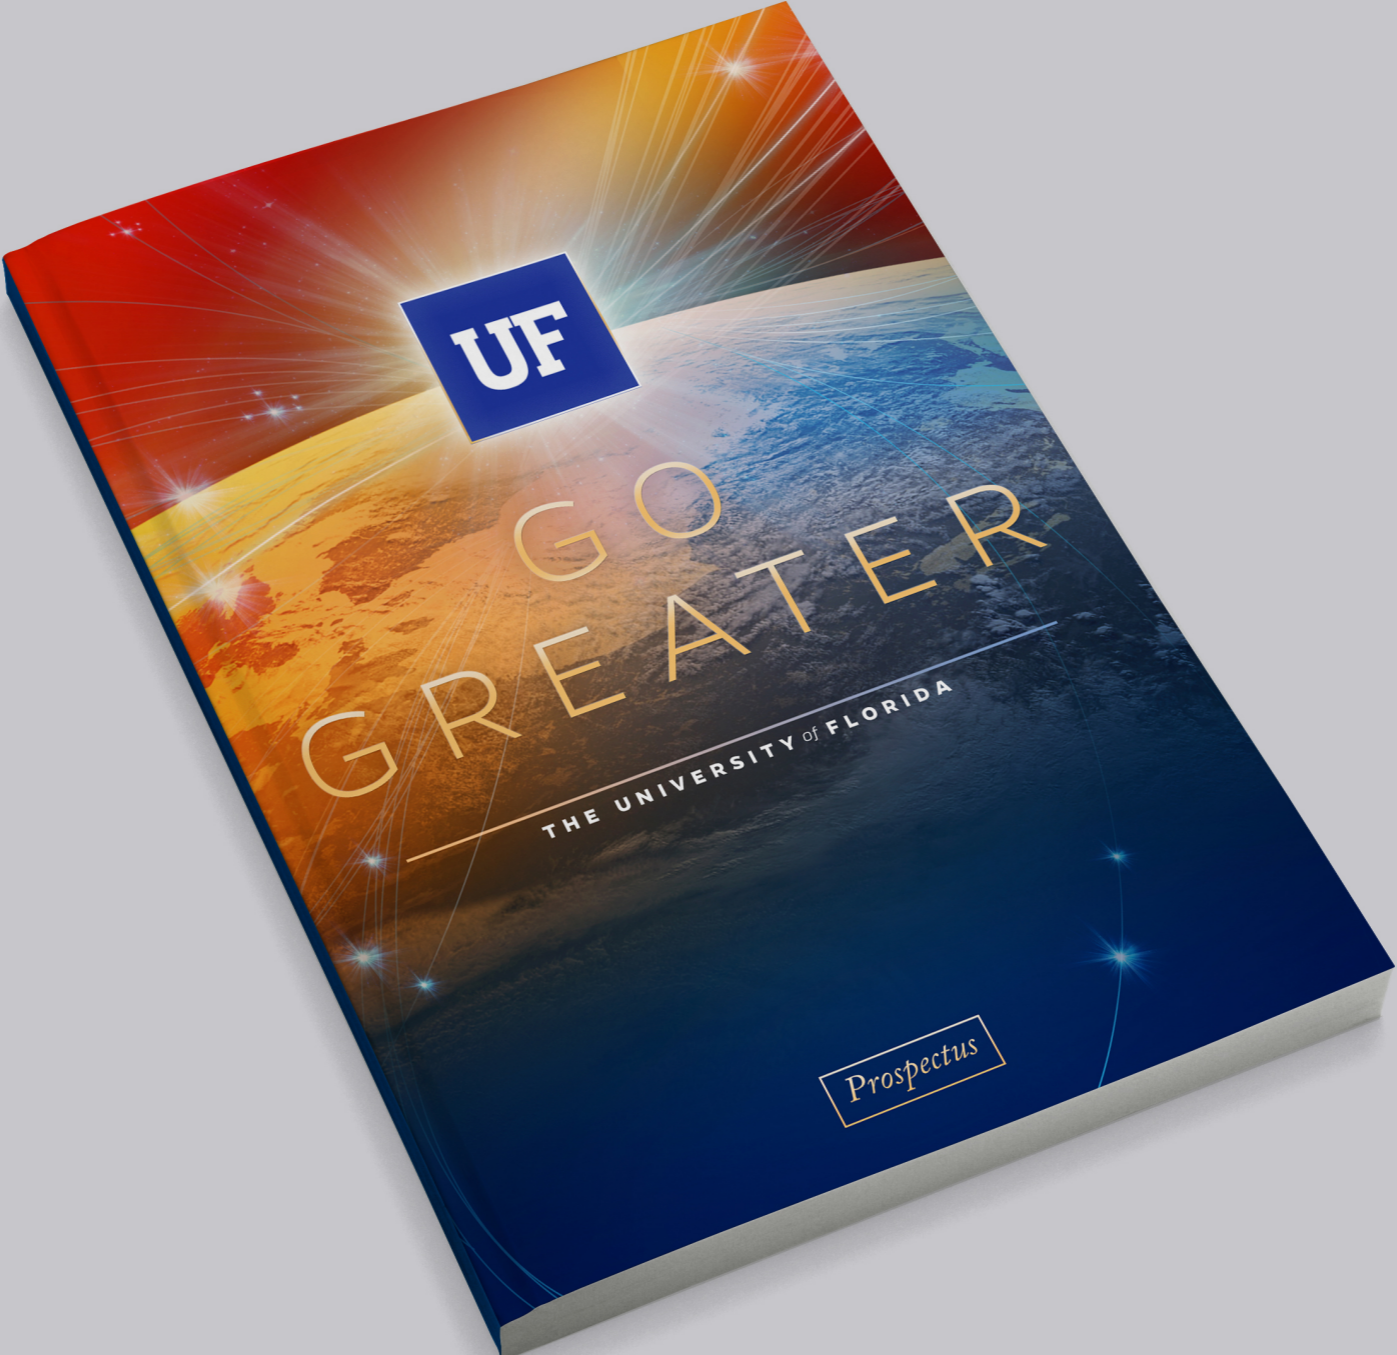

*Staying ahead means*

## PUTTING OTHERS FIRST

*Breaking barriers means nothing if others can't follow your lead. That's why 1985 graduate Eugene K. Pettis, the first African-American president of The Florida Bar, focuses on outreach that broadens minority participation in the bar. Efforts such as these have given the opportunity for recent graduates like Monique Wilson to build her own legacy, with initiatives that help veterans all over the state—opening doors for future trailblazers.*

## BECAUSE NEW MINDS NEED *our light*

*Working together, we must develop our youngest  
from day one to unlock their full potential.*

*Whether we're spearheading interdisciplinary  
advances at the Anita Zucker Center for Excellence  
in Early Childhood Studies or driving change at  
our upcoming summit, the University of Florida is  
at the forefront. With your support, we will give  
kids the foundation to dream and achieve.*

*Through you, we go GREATER for little ones to  
start ahead and stay ahead.*
